

RESOLUTE

A.I. INC

INTELLIGENT SOLUTIONS. LIMITLESS FUTURE.

ENTERPRISE AI, ENGINEERED IN THE PHILIPPINES

Intelligent systems that think, speak and act — built for the enterprise of tomorrow.

Resolute A.I. Inc is one of the first fully AI-native engineering companies in the Philippines. We design, build and operate autonomous voice agents, agentic platforms and enterprise software that work around the clock — so people can work on what matters.

WHO WE ARE

An AI engineering company — not another software vendor.

Resolute A.I. Inc is one of the first fully AI development companies in the Philippines — an engineering house where artificial intelligence is not a feature, but the foundation. From our headquarters above Bonifacio Global City, with teams in Cebu and New Clark City, we take enterprises from the first scoping session to production AI systems — and stay to scale them. Every system we ship is conceived, architected and accelerated by AI, delivering in weeks what traditionally takes quarters.

01

AI-First Engineering

Every system we ship is conceived, architected and accelerated by AI — delivering in weeks what traditionally takes quarters.

02

Enterprise-Grade Delivery

Voice AI, HRIS, fintech and platform builds trusted by BPOs, healthcare networks and telecom operators nationwide.

03

Filipino Innovation, Global Standard

Proudly built in the Philippines, engineered to world-class standards — intelligent solutions with a limitless future.

HOW WE WORK

STEP 01

Scope

We map the workflow, the data and the outcome that matters before a line is written.

STEP 02

Architect

Model, integration and guardrail design — engineered for your compliance envelope.

STEP 03

Engineer

AI-accelerated build in weeks, with working software in your hands from the first sprint.

STEP 04

Integrate

Wired into your telephony, CRM, HRIS and records — where the work already happens.

STEP 05

Scale

Monitored in production and expanded across sites, languages and teams.
